

It's time to turn the crisis into a positive turning point.

CLAIMING OUR FUTURE RDS Dublin,
Saturday,
October 30

Ireland is at one of its most critical moments since the foundation of the State. **CLAIMING OUR FUTURE** is a unique event in our history. It's a chance for people, community organisations, environmental groups, trade unions and other civil society organisations right across the country to not just talk about a better way – but to take new inspiring steps. To foster unity. To power a progressive movement to reshape Ireland's recovery and claim our social values.

CLAIMING OUR FUTURE is a landmark event to launch and mould that movement – for an equal, sustainable and thriving Ireland. Already, individuals, communities and progressive groups from every corner of Ireland are uniting to act.

It's time to turn the despair and frustration into positive and decisive action for real change. For more information; to join an organising group in your area, or; to register for the event go to claimingourfuture.ie right now.

**CLAIMING
OUR FUTURE**

a progressive movement
for an equal, sustainable
and thriving Ireland
